LAMA FOR WATERPROOFING
AMMAN - DAMASCUS - ABU DHABI

MATERIAL SAFETY DATA SHEET

LAMA MASTIC

1. Identification:

Area of Application: Construction Industry.
Product use: Solvent based, cold applied rubberized bituminous paste for Applications as a Crack and Small Openings Filler to Protect Against Moisture and Foreign Objects.
Supplier/Manufacturer: Jordan Bituminous Products Center, P.O.Box: 852 Amman 11953 - Jordan.
Telephone: +962 6 535 0401
Fax: +962 6 534 7121
Web Site: www.lamawp.com
Issue Date: April 22, 2014.

2. Composition / Information on ingredients:

Composition	CAS Number	Content %
Bitumen	8052-42-4	< 50
Solvent	8008-20-6	< 25
Filler	16389-88-1	< 35
Rubber	9003-55-8	< 5

3. Hazards Identification:

Combustible paste: Keep away from heat and fire sources.
Eye Hazards: Irritating and can cause burning. Do not have in direct contact with eyes. Make sure that hands are clean before touching eye.
Skin Hazards: May cause skin irritation and contact dermatitis upon prolonged contact.
Ingestion Hazards: May be harmful if swallowed. May cause gastric distress, vomiting and diarrhea.
Inhalation Hazards: Solvent odor is smelled while being used cold. Avoid excessive smelling of the odor. However, Lamamastic should never be heated. May develop disturbing fumes and can ignite if heated.

4. First aid measures:

Eye contact: Flush with plenty of water in case of contact. Get medical attention immediately if irritation develops and persists.
Skin contact: Wear protective attire and gloves. Avoid prolonged skin contact. Clean with kerosene. Then wash with soap and water.
Inhalation: Remove person from contaminated area to fresh air. If breathing is difficult, give oxygen. Seek medical help.
Swallowing: Do not induce vomiting. Never give anything by mouth to an unconscious victim. Call a physician immediately.

5. Exposure Control/ Personal Protection:

Eye/Face Protection: Safety glasses are recommended.
Skin Protection: Avoid prolonged skin contact. Wet the hands with cold water and soap to avoid stickiness with skin when working.
Respiratory Protection: Avoid excessive smelling of solvent odor.

6. Physical and chemical properties:

JORDAN BITUMINOUS PRODUCTS CENTER
LAMA FOR WATERPROOFING
AMMAN - DAMASCUS - ABU DHABI

Appearance: Black paste semi solid. Gets softer when being stirred mildly.

Odor: Aromatic solvent odor.

Storage temperature: 2 to 40 °C.

Specific gravity: About 1.1.

7. Stability and reactivity:

Stable, does not react with salt, mild acids and alkalis. However, avoid contact with strong oxidizing agents and acids. No hazardous polymerization after prolonged storage.

8. Toxicological properties:

Although this product is not considered toxic, an overall toxicological testing has not been conducted for it.

9. Ecological information:

No specific information is available.

10. Fire fighting measures:

Flash point: Approximately 50 °C.

Flammability: Combustible. Burning may release irritating, corrosive and/or toxic gases, vapors and fumes.

Extinguishing media: Any kind of fire extinguishers.

Recommendations: No special recommendation.

11. Accidental release measures:

Contain and/or absorb spill with inert material (e.g. sand, soil). Collect and dispose in accordance with applicable regulations.

12. Handling and storage:

Handling: No special handling recommendation. However, proper safety procedures should be taken when lifting the heavy drums not to injure workers back and muscles.

Storage: Storing in a covered area and not under direct sun heat. Storage temperature is between 2 - 40 °C. Store in a neat arrangement, not to block the way in case of store fire.

Shelf life: 12 months if stored according to instructions.

13. Transportation information:

No special transportation precaution recommendation is applicable.

14. Regulatory information:

No regulatory precautions are applicable for this product.

15. Disposal Consideration:

Dispose in accordance with applicable local government regulation. Unwanted materials can be dump-buried in landfill.

16. Disclaimer:
